Experience

June '22 - Present **Front-End Engineer**

Allstate Northern Ireland, Belfast | Allstate's Design System

A comprehensive internal design system to streamline the development process from concept to production.

- Translating wireframes into fully functioning code to bring designs to life.
- Enhancing UX and UI consistency through a component library and design pattern.
- Promoting component reusability throughout the company to reduce code duplication and speed up development.
- Integrating Adobe and Snowplow analytics tools to provide data on user behaviour.
- Saved \$3.1M in chat maintenance by meeting the deadline for chat vendor migration.

Sept '18 – June '22 **Web Application Developer**

Allstate Northern Ireland, Belfast | myaccountrwd.allstate.com

With over 7 million unique monthly users, My Account is Allstate's tier 1 customer-facing web application that allows customers to view and manage their insurance policies.

- Developing and maintaining features from business and user requirements ensuring cross browser/device compatibility.
- Implementing UI rebranding to web page elements, buttons, input fields and images.
- Identifying and fixing bugs found in test and production environments.
- Unit testing code, ensuring a minimum of 90% code coverage per component.

Projects

Oct '21 - Present **Athletic Club Belfast** | acbelfast.com

Designed and developed a React and Firebase website for a Belfast football club with pages for home, squads, fixtures, results, and contact.

Dec '20 - Present **BFS Healthcare Ltd** | bfshealthcare.co.uk

Designed and developed a WordPress site for a nursing agency, featuring information, registration, and contact options via forms.
